NTSPRINT LLC, Bothell, WA 98021, US   Offer | Ref: NT0-25048

Startup - MVP Build & Iterate

Startup gaining traction! - From an initial idea, to an MVP, to Market Leader.

From: **$35.00 USD / hr**   (Save 50% vs Standard Rate)

Validating assumptions with an MVP (Minimum Viable Product). Discovery Stage is a strategic way for startups to reduce risk and learn quickly.

What we offer?

This offer is aimed at **coding services** for each engineer based on the rate referenced in the offer, taking into account his contribution on:

- **Custom Software**
  Tailored applications built to meet your specific business needs, from concept to deployment.

- **Web & Mobile App**
  Scalable, secure, and user-friendly platforms for iOS, Android, and web.

- **System Integration & API Development**
  Seamless integration of new solutions with your existing infrastructure.

If extra services are required

Our multidisciplinary team provides comprehensive support to development:

- **Maintenance & Support | Any Other?**
  Ongoing technical support, updates, and performance optimization. Contact sales for more details.

Included

- Free Wireframing and prototyping to test your concept before development.

- Free dedicated Agile Project Manager to keep your project aligned, on track, and moving fast.

- Daily Status Emails: the engineer sends a status emails covering what was done in the last 24 hours, what will be done in the next 24 hours, includes blockers or important points.

- End Of Sprint (EOS) Reports which summarize the progress in a period of time that could be a sprint, a week, other, including statistics, charts, pictures, and pointing to ready-to-test

environments.

- Free Deployment to get your product live quickly and reliably in two (2) environments.

- Free Analytical Tool integration to monitor what the app users are doing.

- Building for the future: Technical guidance and growth advice to scale your product.
